boundaries

The Economic Census provides detailed industry and geographic data every 5 years and serves as the benchmark for most other economic programs.

Economic Census tools:

Drill-down tables

-- get data for one area, e.g., your city

Industry Statistics Sampler

-- get data for one industry at a time
-- get the NAICS code for your industry

American FactFinder

-- get data for more than one industry and area at a time
-- download and manipulate the data

PDF reports

-- get publication-quality printing (available 2-4 weeks earlier)

Guide to the Economic Census

-- get information about the Economic Census schedule, content, methodology, maps, and tips for using the data

www.census.gov/econ2002

1 – Select “Data Sets” American FactFinder lets you select, download, and manipulate the data

2 – Select 1997 & 2002 Economic Censuses

3 – Select an Industry Sector

4 – Select “GAS Summary Statistics”

5 – Customize Table:

Select – Filter Rows
Sort – Use Options after filtering
Output – Print/Download
